

Dear Wednesday Night dart players,

RE: 2020-2021 SEASON

We will play darts this season and in light of the new restrictions due to Covid-19, there are procedures and restrictions we must follow. As a member of SUDO and the SDA, we have looked to them, along with Sask Sport, for guidance. The SDA has documents on their website to help affiliated leagues through the start-up process this fall.

An email was sent out to all 2019-2020 players and spares as long as the statistician had an email address. We need to know how many players are planning on returning in September so we can decide how to move forward with league play.

- Keeping restrictions in mind, do you want to play league darts this season?
- PLEASE communicate with your teammates. There may be 1 or 2 people that want to play and 1 or 2 that do not.

Please respond to laurie.k@sasktel.net if you or your team captain haven't already done so.

Some restrictions we know of are:

- Max of 50 participants
- Must be the same 50 people each week
- No guests or spectators
- Even a 5-person team, only 4 members can be present
- Spares will ALL have to be preregistered and pre-booked, no drop ins
- Each player must use their own marker and eraser
- Use social distancing when possible (perhaps use every second board, maybe no team game)
- Because darts is a precision sport rather than a high impact aerobic sport, the use of masks is encouraged
- There will be a leader designated to be responsible for responding to all Covid-19 concerns. This leader will be responsible for many things and their decision is final and includes the authority to suspend or temporarily cancel play at any time.
- Depending on the number of players deciding to play this season, we may break the league into two parts, one running from September to December, and the other from January to April.
- Of course, we will follow any restriction changes as they happen.

Wednesday Night Executive
